

*Grapes for  
Winemaking*

## ***Wine from grapes.***

For many years I have enjoyed making my own wine.  
If you are reading this I guess you have some interest in it too.

Winemaking is a well kept secret – there is no magic about it.

- Superb wine for 80p a bottle.
- No additives - No hangover.
- Easily made at home

I grow a few grapes, but they can be imported from Italy, France or Spain  
a lot easier than they can be grown in the English climate.

Located near Peterborough, I will be importing winemaking  
grapes and winemaking equipment in late August early September.
